Dear Parents, **Date: 27.10.2026**
Namasthe.

During the recent Parent-Teacher Meeting (PTM), several important concerns were discussed by both parents and teachers regarding the overall development, behaviour, discipline, and well-being of our children. We believe that the holistic development of a child is a shared responsibility of the school and the parents. We therefore request your cooperation and support in the following areas.

1. Responsible Digital Media Consumption

One of the major concerns raised during the PTM was the increasing exposure of children to violent scenes, abusive language, bullying, dangerous or self-destructive behaviours, and other age-inappropriate content through films, television programmes, web series, and digital platforms.

Repeated exposure to such content may influence children's language, attitudes, and behaviour, making aggressive actions such as kicking, hitting, beating, and verbal aggression appear normal or acceptable.

We request all parents to:

- Use parental controls, digital locks, and age restrictions on televisions, mobile phones, and other digital devices.
- Monitor the content children watch and ensure that it is appropriate for their age.
- Encourage children to develop healthy screen habits and engage in constructive activities.
- Avoid keeping the television switched on during mealtimes.
- Make dinner time an opportunity for meaningful family conversations, with all family members, especially children, away from screens.

A safe and positive media environment at home plays a vital role in shaping children's behaviour and emotional well-being.

2. Instilling Cultural Values and Respect

Several parents expressed concern about the gradual decline in respect for our culture, traditions, heritage, and elders.

As educators and parents, we share the responsibility of helping children understand and appreciate our cultural roots, moral values, and national heritage. Love for our motherland, respect for our traditions, and a sense of patriotism must be nurtured from an early age.

MATRUSRI DAV PUBLIC SCHOOL

While the school continues to make every effort to instil these values, parental involvement at home is equally important. We request parents to reinforce these values through their daily actions, conversations, and family practices.

Together, let us nurture responsible, respectful, culturally aware, and patriotic citizens who will contribute positively to the future of our nation.

3. Developing Self-Responsibility and Personal Grooming

Children must gradually learn to take responsibility for their personal belongings and daily routines. We request parents to encourage their children to:

- Keep their school uniforms neat, clean, and presentable.
- Wear the prescribed school uniform properly and with pride. Maintaining the proper uniform is the responsibility of every student.
- Take responsibility for their tiffin boxes and other personal belongings.
- Maintain personal hygiene, cleanliness, and appropriate grooming.
- Develop habits of discipline, punctuality, and self-reliance.

These simple daily practices help build confidence, independence, and a sense of responsibility.

4. Improving Language Skills, Reading, and Articulation

Strong language and communication skills are essential for a child's academic and personal growth. Along with English, children must be encouraged to read and practise their other languages daily.

We request parents to:

- Make reading a daily habit at home.
- Provide age-appropriate storybooks, comic books, and other interesting reading materials.
- Encourage children to read aloud, communicate confidently, and articulate their thoughts clearly.
- Ensure regular practice in reading languages taught at school, in addition to English.

The school is also taking initiatives to strengthen students' reading skills. Reading assessments are being conducted for both primary and secondary students, with primary teachers assessing secondary students and secondary teachers assessing primary students.

We request parents to purchase suitable reading books for their children and ensure that they practise regularly at home. Consistent practice is essential for improving reading fluency, comprehension, vocabulary, and confidence.

A Shared Responsibility for a Better Future

Dear Parents, the school and the family are equal stakeholders in shaping a child's character and future. Although we make every effort to guide, educate, and nurture children during school hours, a significant part of their learning and behavioural development takes place at home.

MATRUSHRADHA PUBLIC SCHOOL

Your active involvement, consistent guidance, and positive role modelling are therefore indispensable.

Let us work hand in hand to raise children who are well-behaved, disciplined, responsible, respectful of their culture and heritage, confident in communication, and proud of their nation.

Together, let us shape not only successful students but also responsible, compassionate, empathetic and value-driven citizens of tomorrow.

We sincerely appreciate your continued cooperation and support.

With warm regards,

(K. ANANDAVALLI)
